Term	Allotment Overview		
Autumn 1	• Harvest root vegetables (carrots, beetroot, potatoes etc) and squashes • Water when needed • Clear away any dead foliage and plant remains – add to the compost bin • Choose and buy seeds for the year	Autumn 2	• Harvest remaining summer vegetables • Plant bare-root fruit bushes (if having them) • Plant shallots and garlic • Clear away any dead foliage and plant remains – add to the compost bin • Cover empty beds with cardboard
Spring 1	• Harvest winter vegetables (ie cabbages, leeks) • Add compost to vegetable beds. • Weed the vegetable beds and cover empty ones with cardboard. • Buy and chit seed potatoes (put them in a place where they can begin to sprout) • Plant broad beans	Spring 2	• Dig over empty vegetable beds and cover with cardboard. • Sow indoor seeds (ie sprouts, peas, radishes, tomatoes, pumpkins) • Plant potatoes
Summer 1	• Sow seeds outdoors - if weather is mild (ie carrots, beetroot, peas) • Weed vegetable beds (be careful not to pull up seeds we've planted!) • Net fruit bushes • Water when needed	Summer 2	• Sow seeds outdoors • Weed vegetable beds (be careful not to pull up seeds we've planted!) • Water regularly • Harvest crops that are ready

Safety reminders: Allotment Risk Assessment must be adhered to during visit.

- Tool safety and supervision requirements
- Handwashing after gardening activities
- Identifying which plants are safe to touch/taste
